

1. Title Page

- **Title of the Report**
 - **Author Name(s)**
 - **Client/Organization**
 - **Date of Submission**
-

2. Executive Summary

- Brief overview of the project objectives.
 - Summary of the data used and the approach taken.
 - Key results and conclusions.
 - Recommendations or actions suggested based on findings.
-

3. Introduction

- **Project Background:** Explain the context of the project and why it's important.
 - **Objectives:** Clearly state the goals and intended outcomes.
 - **Scope of the Report:** Mention what the report covers and what it excludes.
-

4. Data Description

- **Source of Data:** Where the data was obtained (e.g., client-provided, public datasets, APIs).
 - **Data Characteristics:** Describe the dataset(s), including:
 - Number of observations (rows).
 - Variables/columns, their types (numeric, categorical, etc.).
 - **Data Quality:** Any missing data, outliers, or inconsistencies identified during preprocessing.
-

5. Data Preprocessing

- **Data Cleaning:** Steps taken to clean the data (handling missing values, removing duplicates, etc.).
- ****Feature**
